

Employers

Looking for someone to work for you in the Fraser Coast Area?

Registering as an Employer, will take you to a registration form where you list your contact details and the skills and experience you require for current or future positions. Your Employer Profile can be updated any time and is accessible by Job Seekers 24/7.

Your Employer Profile can NOT be accessed by other Employers or Employment Agencies. You can then search the Fraser Coast Jobs Website for Job Seekers who match your requirements. Using our skills search database you can find candidates instantly and/or build a short list of candidates. You can also advertise your jobs for free or emailing your jobs to suitable candidates. There is no charge to register with, or use, the Fraser Coast Jobs Website.
